

UKA TECHNICAL OFFICIALS – NATIONAL EVENTS SELECTION POLICY 2016

- As far as possible management appointments at Level 3, 4 and 5 permit meetings will be made from the officials who have gained the CMA award.
- Subject to availabilities, the aim will be to select officials on the IMO (including 3P's) list for approximately 80% of the roles within each discipline for Level 5 permit meetings.
- The remaining appointments within each discipline for Level 5 permit meetings will be selected from officials currently at Level 3 but not on the IMO list and occasionally L2C to provide development opportunities.
- Up to half of the ancillary roles at Level 5 permit meetings will be selected from level 3 not on the IMO and level 2C officials.
- For level 3 and 4 permit meetings priority will be given to officials not on the IMO list bearing in mind that the resulting teams of officials must be strong enough for that specific meeting.
- The majority of ancillary appointments to Level 3 and Level 4 permit meetings will be selected from officials at Level 2C or Level 3 not on the IMO, put forward by TRNGs. This will include a number of "young" officials.
